- As a group, pick a character from the sheet
- Use the formula to calculate trustworthiness. (use 1-5 for points)
- Repeat 2 more times

The diagram illustrates the Trust Equation as a fraction. The numerator consists of three large blue letters: 'C', 'R', and 'I', each with a plus sign between them. Below 'C' is the word 'Credibility', below 'R' is 'Reliability', and below 'I' is 'Intimacy'. The denominator is a large blue letter 'S' with the words 'Self-Orientation' below it. A thick orange horizontal line separates the numerator from the denominator. To the left of the fraction is a large blue letter 'T' with the word 'Trustworthiness' below it. In the bottom right corner, there is a logo for 'Trusted Advisor [ASSOCIATES LLC]'.

$$T = \frac{C + R + I}{S}$$
